SUPPLEMENT

ORIGIN

25X1X6

1. The Soviet "Konstruktionsbüro" at Junker-Jörg-Str. 9 in Karlshorst is employing Dipl. Ing. Hans Myslivecek as a liaison officer to secure information from, and the services of, German technicians in the other zones of Germany and in Austria.
2. Myslivecek is a colleague of Dr. Lawitschka who, together with other German specialists procured by Karlshorst, is now in Sestroyezk, near Leningrad, awaiting transfer to Oranienbaum. this spring. Oranienbaum will be the site of a testing station.
3. Both Myslivecek and Lawitschka formerly were employed by the Brünnner Maschinenfabrik, Eckerförde (C45), as boiler and turbine technicians. Myslivecek, native of Brünn and a former Nazi, was instrumental in getting Lawitschka a position at Karlshorst in October 1945. Lawitschka appears to have nominated Myslivecek for his present liaison job.
4. The following are excerpts from letters, all dated 2 January 1947, sent by Myslivecek from Berlin-Lichtenberg, Bleckmannweg 4, to German colleagues in Austria:
 - a. Addressed to: Director Erhard, Veith (concern), St. Pölten, Austria:

"I hope that you remember me from the visit to KKK Kühnle, Kopp & Kausch Maschinenfabrik, Frankenthal, Pfalz concerning the Bo-process, and hope that we can renew our old connections in these affairs. First, I am to send you greetings from Mr. Lawitschka, who is in Leningrad at the present time. On his behalf, and on behalf of the Russian Navy, I ask you what became of your turbine blade cutting machine (Schaufelfräsmaschine) with its rapid cutting device (Hurtfräser) and your armature testing apparatus (Läuferprüfgerät), and ask you to tell me by return mail if, and under what conditions, these machines can be obtained, as they are needed in Russia."

- b. Addressed to: Obering. Kolls, Krupp, Berndorf near Vienna:

"I have just learned that the Krupp firm in Berndorf, near Vienna, supplied parts at one time for Universelle, Dresden. These parts, sterns and armatures (Hinterteile und Armaturen) were used for the Navy's Bo-project. Owing to the fact that these parts are now needed by a Russian unit, on whose behalf I am writing, I request you to let me know by return mail if any, and which, of these remain."

- c. Addressed to: Dozent Dr. Willi Machu, Vienna XXX/117, Kaasgrabengasse 11a:

"Remembering our former activity in Eckernförde, and on behalf of Dipl. Ing. Lawitschka, allow me to make you a proposal. Mr. Lawitschka and I are now working for the Russian Navy. Lawitschka is already assigned to Russia and is working there, as he writes, under very good conditions. It is desired to interest you in working with him in Russia under conditions, as Lawitschka says, that could not be offered to you anywhere else in Europe. I request you therefore to answer me by return post, and as soon as I have your decision I shall take the necessary steps (regarding your employment from either Vienna or Berlin)."

25X1A6a

Comment: The above information provides a definite address for the Soviet naval unit referred to in a report of 6 January on ex-Gema technicians and perhaps adds to the note in the same report on the recruiting of specialists.
